RAILROADS ARE MASS OF RUINS

(Correspondence Associated Press)

MEXICO CITY, June 5.—Twisted rails, decayed cross-ties and worn-out rolling stock—products of a decade of revolution—millitate against the efficiency of Mexico's railroads. No greater problem of reconstruction faces the country than the rehabilitation of her railway lines.

The average speed of a Mexican passenger train is 30 miles an hour. From Juarez to Mexico, a distance of 1,235 miles, one has to travel 45 hours, running time exclusive of lengthy stops at Chihuahua City and Torreon. The shorter trip to Mexico City from Nuevo Laredo, opposite Laredo, Tex., requires ten hours less.

Bandits in all parts of the country have wrought havoc with the nation's railway system. Even today one can see ruins of trains that were burned down by outlaws years ago. The roadbeds likewise have suffered. Derailments are frequent, being due to the improper repairing of tracks damaged by marauders.

VETERAN CLAIMS 123 YEARS

(Correspondence Associated Press)

GRAND JUNCTION, Colo., June 24.—Cherokee Bill, veteran of the Plains and soldier in the war of 1812, has just celebrated his 123rd birthday at the country home here.

Cherokee Bill is the only name he knows, in the early days of the country he fought with bow and arrow with the aborigines and even used that primitive weapon, he says, when he fought the British in 1812, enlisting in the army when he was 15 years old. He was born June 6, 1797, and was twice listed in the United States census as the oldest native of America.

The aged Indian recently made a cup for himself out of the down of cat-tails and wears this proudly when he hobbles along the streets occasionally with the aid of a cane. He has owned since the Civil war. He is getting feeble though he still has a good appetite.

Beautiful Martinique.

Martinique, where 18 years ago occurred one of the worst volcanic disasters that human history has ever known, is one of the beautiful islands of the West Indies, retained by France in the desperate fighting for their possession. The capital, Fort-de-France, is an amazingly picturesque town at the head of a beautiful bay. Tourists have been prompted to term Martinique an ideal paradise. It is a lush land of perpetual summer, with an endless variety of highlands and lowlands. Martinique also has the serpent of Eden, the dreaded de la lune, which is the only poisonous snake found on any of the islands north of Trinidad. It sometimes grows to a length of six feet, is quick and powerful, and its poison works almost instantaneously.

Sugar Mills Making Saitpeter.

In the sugar factory at Pecky, Bohemia, successful experiments have been made with the manufacture of saitpeter from the waste liquids of the mill. It is calculated that under normal conditions the best sugar factories of Czechoslovakia will produce 6,000 to 7,000 tons of saitpeter annually. This quantity is considered sufficient for the production of explosives. In Prague a corporation capitalized at 15,000,000 crowns has been organized to manufacture explosives under a permit of the government. The factory will be located at Pardubice, but the offices of the corporation will be at Prague.

JAILS FILLED TO REPLETION

(Correspondence Associated Press)

BERLIN, June 1.—The wave of criminality in Germany shows no sign of abating. Jails are filled to capacity with the thieves' fraternity from those guilty of grand larceny down to the sneak thieves of the big city streets. Very often new arrivals have to be temporarily released from custody owing to lack of room in the penitentiaries. Here are some of the principal thefts and robberies reported in the last few days.

Burglar broke into the Berlin stock exchange and forced a safe open from which they took 5,500 marks and five typewriters.

At Kresna, the mausoleum of Field Marshal Von Moltke was broken open and the silver wreaths and crosses stolen from the sarcophagus. The Field Marshal's sword was found broken.

A band of armed robbers forced their way into the burgomaster's house at Paderborn, near Naumburg, and appropriated 50,000 marks belonging to the city treasury and left the burgomaster tied to a chair.

At Paderborn near Hammelburg the author of a theft from a sealed fourth car was traced and several hundred marks stolen were recovered. The thief was a candidate for a town councilship.

At Spandau a mortuary chapel was stripped of its sacred window panes.

Another mortuary chapel at Spandau was stripped of its sacred panes.

To a popular Berlin suburb a woman who was shopping for her baby in a promenade outside the store for a few minutes. The perambulator disappeared and the baby was found half naked in a doorway.

BOOTLEGGING IN HAWAIIAN ISLANDS

(Correspondence of Associated Press)

HONOLULU, T. H., June 10.—The heaviest penalty yet levied and in the Hawaiian Islands under the national prohibition law was that given the other day to Matsuno Tokunobu, of Hilo, in the United States district court, when the defendant was fined \$750 and sentenced to three months' imprisonment. Tokunobu was charged with having had in his possession 75 gallons of whisky, a native liquor, and in operation three hundred empty demijohns ready for filling and bottling of mash.

Confidence

More than 13,000 women and 22,000 men make up the list of the owners of Swift & Company.

Every state in the Union is represented.

Of this great enrollment more than 10,000 are employees of Swift & Company who own shares in the business.

An additional 13,000 employees are buying shares on deferred payments.

These men and women have confidence in the company's policies, its integrity and purposes. That is why they invest their savings in shares.

Swift & Company has been paying dividends regularly for 34 years. The present rate is 8 percent.

Swift & Company shares are bought and sold on the Chicago and Boston stock exchanges.

The company itself has no shares for sale.

The shares represent actual, tangible values. There is no water.

Anybody—livestock man, retailer, or consumer—may buy them and thus become a part owner of Swift & Company.

No one man, no one family, owns as much as half of the stock.

This advertisement is for the purpose of acquainting you with the fact that Swift & Company is not a "close corporation," and that any one may participate in the profits—and share the risks and responsibilities—by becoming a shareholder.
